

# **ZIPLEVEL FUNDAMENTALS**

**ZIPLEVEL IS A RUGGED, HIGH TECH, LOW COST, LABOR SAVING ALTERNATIVE TO BUILDER'S OPTICAL OR LASER LEVELS. IT DISPLAYS ELEVATION DIRECTLY, SEES AROUND OBSTRUCTIONS, NEEDS JUST ONE OPERATOR AND HAS POWERFUL BUILT-IN FUNCTIONS DESIGNED TO BOOST PROFITS ON THE JOB SITE.**

## **HOW ZIPLEVEL WORKS –**

**ZIPLEVEL works like an aircraft altimeter except that it reads elevations by measuring vertical pressure from a pair of proprietary fluids sealed within its cord. This makes ZIPLEVEL 1,000 times more precise and completely immune to barometric pressure changes.**

## **ZIPLEVEL RANGES –**

## **BASIC PARTS -**
